LEA's Overall Designation and Findings

The purpose of monitoring is to assess the strengths and areas needing improvement at each virtual school. Each year, local education agencies (LEAs) monitor the instructional, fiscal, and operational practices within their virtual schools using a state-defined series of common practices and statutory requirements. This report reflects the LEA's findings during the monitoring process. The monitoring strands and assurances can be viewed within the Monitoring Domains section of this monitoring tool. Below is the LEA's overall findings and areas of notability.

Appendix B: Designation Methodology

The LEA will assign the virtual school a designation level based on the percentages of applicable indicators and assurances as indicated in the table below. Use the tables and formula below to calculate the school designation level.

Designation Levels				
Meeting Expectations =	Approaching Expectations =	Below Expectations =		
80-100% of Indicators Met 60-79% of Indicators Met Below 60% of Indicators Met				

Formula for calculating school designation levels:

$$Designation \ Level \ = \ \left(\frac{Sum \ of \ Indicator \ Ratings + Sum \ of \ Assurance \ Ratings}{\# \ of \ Applicable \ Indicators + \# \ of \ Assurances}\right) \times 100$$

Assurance Rating Table

Each monitoring domain has associated assurances that are drawn from Tennessee statutes and Tennessee State Board of Education (SBE) rules. The included assurances are indicators of statutory and regulatory compliance and are not an exhaustive list of statutes, rules, or regulations that govern virtual schooling. For each assurance, the LEA's director of schools or their designee will choose either yes or no signifying compliance or non-compliance. The LEA will assign a numeric value to each assurance based on the tables below.

Compliant with Assurance	Non-compliant with Assurance
 The LEA's director of schools or their designee attests that the virtual school is fully compliant with the listed assurance. 	- The LEA's director of schools or their designee attests that the virtual school is not fully compliant with the listed assurance.

Numeric Value of Assurance Ratings			
Compliant with assurance	Non-compliant with Assurance

Indicator Rating Table

LEAs will rate how the virtual school aligns to each applicable indicator within the monitoring strands. The LEA will assign a numeric value to each applicable indicator based on the tables below. Certain indicators may not be applicable to the virtual school; these indicators should not have a numeric value assigned and should be marked as "Indicator Not Applicable".

Fully Meets the Indicator	Partially Meets the Indicator	Does Not Meet the Indicator	Indicator Not Applicable
- LEA determines that the virtual school fully aligns with elements addressed in the indicator.	 LEA determines that the virtual school partially aligns with elements addressed in the indicator. 	 LEA determines that the virtual school does not meet or align with elements addressed in the indicator. 	 The indicator is not applicable due to grade-level configuration The indicator is not applicable due to absence of previous year accountability data The indicator is not applicable due to LEA policy
